## Chaplain's Message

**Monsignor William A. Collins**

**May 2018** - We are coming to the season when we see and experience graduation ceremonies for children and grandchildren. This is also the liturgical season when we celebrate a commencement or graduation of Our Lord's apostles. He tells them to go into the world and make disciples of all nations (Matthew 28:19). In the Acts of the Apostles (1:11), Our Lord commissions the apostles and assures them of his continuing help, through the Holy Spirit.

For us, who have already graduated, maybe many years ago, this is a time for rededication, not just to our worldly tasks, but also to our share of the apostles' work of bringing Our Lord's gospel, in our own way, in our area, in ways proper to our own vocation in life, the depth of our faith, and our level of education, and with the help of the Holy Spirit, who helped the apostles, especially on Pentecost, who helps us, by the grace of our Confirmation. This month, we also ask the help of Our Blessed Mother, whom we honor in a special way this month.

**June 2018** - "What is man, that you are mindful of him..." as Psalm 8 asks God. We might ask the same question. We know we are not self-sufficient. We are quite conscious of our vulnerabilities, our dangers; domestic ones of violence and financial fragility. We are conscious of world-wide vulnerabilities: turmoil, terrorism, threats from adversary and enemy nations. Closest to home is our vulnerability from the fragility of our own health, and our

final earthly destiny of dying. We therefore have reason for gratitude to God, who protects us in all these dangers. God is self-sufficient; he doesn't need us.

Why, then, is God mindful of man? Why did he create us, with all our abilities and talents? Why did he save us from our sins by the death of His only-begotten Son? We should ask, not only what is man to God but also why is God mindful of us. It is because he loves us, despite our unworthiness and weakness, a love he demonstrated in the passion and death of Our Lord, something we celebrate this month in devotion to the Sacred Heart of Jesus. The Sacred Heart of Jesus, whose feast day we celebrate this month, is the symbol and more than the symbol, also the source of that divine love which redeems us and looks after us in this life and in the next. ♦♦♦

## District Deputy's Message

**Bill Adams, District Deputy**

Rev Father and My Brothers All,

I bring you final greetings from our Worthy State Deputy Stephen M. Cohen. He wanted me to express his appreciation for all the support he has received over the last 2 years and 10 Months. His Motto has been We are Advocates of the Lord, and make this the best year ever.

I believe all five councils have made this the best year ever, but remember the year doesn't end until Mid-night June 30th, so let's finish strong. I am not relieved by the State Deputy until I get a call at 2400 hours on the 30th, neither are all of you. Two years ago, I was appointed as your District Deputy, not really knowing how I ended up with the Honor. I have tried to lead by example, but also with enthusiasm. Two years sound like a long time, but a time to build. Now it comes to an end, and I don't know where the years went. It has been my honor to serve you, to watch each council grow in membership, in participation at your events, to see new events, and to see membership attendance at you meetings grow. Where sometimes it was hard to get enough men to even hold a vote, to now all councils are well above the numbers needed and participation has been great. We have been through happy times and sorrowful times together, but we did it together.

I turn you over to Charlie Kohler as your DD and Dave Love as your DW. Both are men I have grown to respect and love as brother Knights. I know they will support you well. God Bless you all, and I will still be around. And always remember your promise to Carry your Rosary with you always and pray it as often as possible. Vivat Jesus. Bill Adams DD-21

## From the Lectern

**Daryl Kaufmann PGK, Lecturer**

Dehydration and heat stroke are two very common heat-related diseases that can be life-threatening if left untreated.

### What is dehydration?

Dehydration can be a serious heat-related disease. It is also a dangerous side effect of diarrhea, vomiting, and fever. Children and people over the age of 60 are particularly susceptible to dehydration.

### What causes dehydration?

Under normal conditions, we all lose body water daily through sweat, tears, breathing, urine, and stool. In a healthy person, this water is replaced by drinking fluids and eating foods that contain water. When a person becomes so sick with fever, diarrhea, or vomiting, dehydration happens. It also happens if an individual is overexposed to the sun and not drinking enough water. This is caused when the body loses water content and essential body salts, such as sodium and potassium. Occasionally, dehydration can be caused by medicines, such as diuretics. These deplete body fluids and electrolytes. Whatever the cause, dehydration should be treated as soon as possible.

### What is heat stroke?

Heat stroke is the most severe form of heat illness and is a life-threatening emergency. It is the result of long, extreme exposure to the sun. In this case, a person does not sweat enough to lower body temperature. The elderly, infants, persons who work outdoors, people with mental illness, obesity, poor circulation, and those on certain types of medicines or drinking alcohol are most susceptible to heat stroke. It is a condition that develops rapidly and needs immediate medical treatment.

### What causes heat stroke?

Our bodies make a tremendous amount of internal heat and we normally cool ourselves by sweating and radiating heat through the skin. However, in certain circumstances, such as extreme heat, high humidity, or vigorous activity in the hot sun, this cooling system may begin to fail. This allows heat to build up to dangerous levels.

If a person becomes dehydrated and cannot sweat enough to cool his or her body, his or her internal temperature may rise to dangerously high levels. This causes heat stroke. ◆◆◆

## Message from the Council Benefits Advisor

Michael Hurley, FIC (Mike) Council Benefits Advisor

“Do you have Long Term Care Insurance?” Yes, each of you do. You might not have a traditional long term care policy...but you have long term care insurance in the form of your other assets.

- Your 401K is your long term care insurance.
- Your pension check is your long term care insurance.
- Your social security income is your long term care insurance.
- Your savings, CD and investments are your long term care insurance.
- Your home and or your second home are your long term care insurance.

HERE’S the point: You can either take all the risk...or you can export that risk to an insurance company like the Knights of Columbus. If you self-insure that risk (either by design or neglect) that’s an awful situation your spouse and family might end up in. You don’t self-insure your car or home, right? Same concept, just a much bigger exposure with long term care as costs are about \$7500 a month, on average.

Brothers, take control of this risk and get some peace of mind. You’ll be glad you did. Call me for more information. We now have several options that you can choose from – one which allows you to keep the money you put into the policy if you don’t have a claim. I can be reached at 410-913-7835 or Michael.hurley@kofc.org. Vivat Jesus. ♦♦♦
